AAA President's Message

Dear Readers,

It gives me pleasure to write the introduction for this Statistics Handbook being released during the 5th Asian U18 Athletics Championships.

Athletics is a sport that embodies the very essence of human achievement. It requires strength, speed, endurance, and mental toughness, and it rewards those who are willing to push themselves to their limits and beyond.

The records in this book are a testament to the dedication and perseverance of the athletes who have worked tirelessly to achieve success.

This handbook is more than just a collection of records. It is a celebration of the human spirit and the endless pursuit of excellence. It is a tribute to the dedication, hard work of the athletes who have broken these records, as well as the coaches, trainers and supporters who have helped them along the way.

I take this opportunity to thank the statisticians and the editor, without them this handbook would not have been possible.

I hope that this handbook inspires you and may it be a source of knowledge, inspiration, and motivation.

Sincerely,

Gen. Dahlan Al Hamad
President
Asian Athletics Association

Welcome Message!

Dear Friends, dear track and field athletics family!

It is a great honor for us to host the 5th Asian U18 Championships for boys and girls in Uzbekistan for the first time, namely in the capital of the country, and of course, it is a great honor to host all of you at the Asian U18 Championship.

A lot of work has been done and we are confident that the 5th Asian U18 Championship will be held at a high organizational level. We hope for high results by athletes who will become stars of track and field athletics in the future.

I would like to express our sincere gratitude and deep appreciation to President Dahlan Al Hamad and all respected members of the AAA Council for their trust and support in holding the 5th Asian U18 Championship in Uzbekistan. I am confident that with joint efforts we will achieve high results in organizing and holding the 5th Asian U18 Championship.

As you know, Uzbekistan will host the Youth Asian Games in 2025. This competition is a test for us and will allow us to gain great experience. I am sure that everyone will get special impressions from Uzbekistan and, of course, I sincerely hope to hold significant sporting events more than once in the future.

Welcome to Uzbekistan to all participants and I wish each of you all the best!

**Andrey Abduvaliev
Vice President AAA
Vice President of Uzbekistan Athletics Federation**

Editor's Note & Acknowledgments

This Statistics Handbook is a work hugely inspired by various Statistical compendiums published by the *World Athletics* and excellently edited by my long-time friend **Mark Butler** for the past several years.

Youth athletics is not a new concept as young athletes with ages 16 and below took part in various competitions throughout the World for the past several years. In Asia, athletes from Japan and Korea started training for athletics in their younger years. Age-group competitions for athletes under 14, 16 and 18 years are very popular in the Indian sub-continent and Sri Lanka since the 1950s. The People's Republic of China also started grooming children in sports from a young age.

The IAAF World Youth Championships in Athletics was first held in 1999 in Bydgoszcz, Poland. Ten editions of the above championships were held until 2017 when the Kenyan capital Nairobi hosted the 10th edition of 2017. Thereafter the World Athletics decided to keep the regional championships while do away with the world youth meet.

The first edition of the Asian Youth (U18) athletics championships was held in Doha, Qatar, in 2015. Subsequent editions were held in Bangkok (2017), Hong Kong (2019) and Kuwait City (2022).

Athletes from 39 member federations of Asia have taken part in 2015 in 40 events contested then, wherein athletes from 27 countries shared the medals. The number of participating countries was equal in the second edition in which the medals went to 21 teams. As many as 19 countries won medals in 2019 while the fourth edition in Kuwait 2022 witnessed the participation of only 30 teams in the first-ever post-Covid championships in the continent. Some of the major sporting powers like China and Japan abstained there. India cashed in the opportunity by taking the top spot in the medals table by winning 6 gold, 11 silver and 7 bronze medals.

Tashkent, the capital city of Uzbekistan is organising the fifth edition of the championships from April 27th to 30th this year. Uzbek athletes had won a total of 7 gold, 3 silver and 6 bronze medals in the four editions of the championships held to date.

In this handbook, you may find a List of Past Medallists, Best National Placings per event, National U18 Records, Progression of Asian Youth Records, Asian All-Time Top Lists for the said age group and an Index of Countries that took part in the previous editions of the championships with country-wise medal tally and best performers' chart.

Participation Summary:

This section covers edition-wise participation by countries and the number of medal-winning nations.

List of Past Medallists:

In this section, you may find the list of all medallists in all events conducted during the past four editions of the championships. The Indian javelin thrower Rohit Yadav, who originally won a silver medal in the 2017 edition in Bangkok was since disqualified due to doping violations. The result was since adjusted by upgrading the next two placed athletes to the medals lists. The "▲" indicates such changes in the respective year of competition for the concerned event.

Best National Placings:

This section gives information about the best order of finish (in finals or qualifying rounds, as the case may be) for each nation in each event. Here again, the "▲" symbol shows the change/upgrade in the order of finish following the disqualification an athlete concerned.

National Youth Records:

The best-known performance per event per nation is included if a country does not have its own national U18 records. However, wherever a country is having such records but does not recognise a particular performance the same is mentioned with a “*” after the country code for the respective event. Additional notes (#) can be found at the bottom of each event where a superior mark is not recognised by the respective national federation for various reasons. In any track event “+” shows an intermediate mark en route to a longer distance. Manual (hand) timings in track events are indicated with “m” after such performance. The Central Asian republics (KAZ, KGZ, TJK, TKM, UZB) recognised their athletes’ performances from the Soviet Era. Many such marks were superior to the listed Asian U18 Records. However, those marks are considered only in this section as per the interest of the respective members.

Progression of Asian Youth Records:

In this section, we have listed the evolution of best Asian U18 marks from 1999 onwards. However, in some strong events, we have included the records created prior to that year. With variations in the weight of the implements used in throwing events and the height of the hurdles in recent years, we have mentioned the details in respective events.

Asian All-Time U18 Top Lists:

You may find in this section the Top-20 Performers (athletes) in each event. Wherever the majority of the list is dominated by athletes from China and Japan, additional top athletes from other countries are included in the respective events keeping in mind at least athletes from a minimum of five countries and territories appeared in it. My friend and ATFS member **Felix Capilla** dedicated his valuable time once again to compiling the evolution of the Asian U18 Records and the All-Time Lists.

Country Index:

This section shows a list of countries that participated in the past four editions of the Asian Youth Championships in alphabetic order with their year of participation. A separate medal table for each country in each edition is also included. For countries who did not win any medals so far, the best performer in each division is enclosed for ready reference. Wherever relevant, the country-wise medal tally was also adjusted after the doping disqualifications occurred in the past.

Acknowledgements:

I principally acknowledge the support received from **Heinrich Hubbeling**, the Asian AA Statistician, who for the past 35 years compiled the annual and all-time Asian Ranking Lists. A great deal of information was provided by Mirko Jalava (*Tilastopaja*), Michel Saint-Raymond (*AthleRecords*), Sevket F. Erbay (*Athletics Podium*), Peter Matthews (*Athletics International*), Winfried Kramer (*National Records for All Countries in the World*), Alfonz Juck (*EME News*), David Monti (*Race Results Weekly*), Marco Buccellato (*Atletica*), Tony Hunt (*World Junior Athletics*), Michel Naze and Stephen Sprague.

I also fondly remembered the great work by the late Lionel Peters in collating the junior and youth athletics statistics for so many years, which were still forming a base for anyone working on both U20 and U18 categories.

Mention must be made to **Felix Capilla**, who spent his valuable time putting in his efforts to create the deep Asian All-Time Lists and Progressive Asian Records sections.

Mark Butler, Richard Hymans and Paul Jenes for their inspiration and encouragement from time to time.

I would like to thank Rahul D Pawar for coordinating between various championship organisers of the past and AAA Statistician Heinrich Hubbeling in compiling the edition-wise results service.

Many of my friends associated with the *World Athletics* supported me in my work on various occasions. For that, I would like to thank Ottavio Castellini, Sean Wallace-Jones, Chris Turner, Anna Legnani, Laura Arcoleo, Imre Matrahazi, Carlo de Angeli, Jessica Whittington, Bob Ramsak and Jon Mulkeen.

Association of Track and Field Statisticians, in which I am a member since 1982, for moulding me into who I am today.

Last but not least, to the Asian Athletics Association, especially to its President Gen. Dahlan Al Hamad and Secretary-General Mr A. Shuggumarran for having permitted me to produce and edit this statistics handbook on behalf of the AAA.

A work of this nature takes a great deal of time and energy, and hence errors are likely to creep in. I shall be highly thankful if you could send any additions, corrections and comments to my email ID sportsmurali@gmail.com and/or sec@asianathleticsassociation.org

I am confident that this handbook will be useful to the fans, media and officials in following the 5th Asian Youth (U18) Athletics Championships.

I take this opportunity to wish all participants, officials and the organisers every success.

Progression of Asian U18 Records

This list shows the evolution of Asian Youth (U18) Records (or Best Performances) from 1993 when the Central Asian Republics (KAZ, KGZ, TJK, TKM, UZB) joined the Asian Athletics Association. However, in some strong events where the records created earlier by athletes from other Asian nations were relevant, the same has been included. Compiled with major inputs from Felix Capilla, Mirko Jalava, Heinrich Hubbeling, Michel Saint-Raymond and members of the Association of Track and Field Statisticians.

Asian U18 All-Time Top Lists

This list is principally compiled by **Felix Capilla** (ATFS). The marks in *italics* show the athletes took part in the former Soviet Union (URS) until 1991 and CIS in 1992. Athletes from many Central Asian Republics had their best performances during the *Soviet Era*. However, we leave it up to the readers to form their own opinions on how to value such marks. (As of 31 Mar 2023)

NOTES

- *Championships events compiled.*
- *Top-20 performers / top-5 countries minimum par event.*
- *Indoor performances are not considered.*
- *Wind assisted performances are not considered.*
- *Hand-timed performances only for distances from 800m onwards.*
- *Performances made with junior/senior hurdles/implements are included if they are better than those made with youth hurdles/implements. These performances are marked with an asterisk *.*
- *Relays: only the best performance for each country (in fact it is almost a list of NRs).*
- *In italics, performances by athletes from former USSR (until 1991) and CIS (1992) Asian Republics, and affiliated to clubs of those republics.*
- *Competition abbrev. for global, area and national champs and games.*

COUNTRY INDEX

This section contains details of the best achievements of the 45 member countries and territories of the Asian Athletics Association that took part in the Asian Youth Athletics Championships at least once.

As many as 23 countries took part in all four editions of the Championships held to date—

Bangladesh, Chinese Taipei, Hong Kong, India, Indonesia, Iran, Jordan, Kazakhstan, Korea (South), Kyrgyzstan, Lebanon, Malaysia, Maldives, Nepal, Oman, Qatar, Saudi Arabia, Singapore, Sri Lanka, Thailand, Uzbekistan, Vietnam and Yemen.

The following information is given:

Years Entered:

The years in which the country entered the Asian Youth Championships.

Medals:

Tables showing all the medals won by each country year-wise.

Best Placings:

If there are no medallists, the country's best overall placings are listed. In comparisons across the events, we have selected the athlete who finished nearest to first place.

Doping:

The symbol " ^ " next to a year (or performance) indicates the change in medallist/s in that particular year/event wherein the original medallist was stripped off due to doping violations either occurring in the championships or through retrospective effect from a previous occasion. The medals tally was since adjusted accordingly.
